

The Alliance for National & Community Resilience™ (ANCR™) is a 501(c)(3) non-profit organization focused on developing the tools and resources that communities and others can use to assess and improve their resilience. Central to ANCR is the development of Community Resilience Benchmarks® (CRBs) across 19 community functions. Engaging expert stakeholders, developing the benchmarks, education and outreach efforts require the dedication of significant technical and financial resources. Corporations, trade groups, advocacy organizations and other stakeholders may have a variety of reasons for supporting such an effort—demonstrating leadership, supporting the communities they serve, achieving corporate social responsibility goals, or providing their expertise. As demonstrated by the National Institute of Building Sciences, investments in hazard mitigation can provide a benefit between \$4 and \$11 for every dollar invested. ANCR will provide communities with the tools and metrics to help realize these returns through more resilient communities.

Please join us in the important work of creating whole-community resilience.

<i>Benefits</i>	Platinum \$25,000	Gold \$10,000	Silver \$5,000	Supporter
